

# Bikes on Buses just got a whole new meaning!

HART is pleased to announce new ways to boost bicycle travel via transit.

## Folded bikes are now permitted on all HART buses and HARTFlex vans.

Just a few courtesies to keep in mind:

- Big bikes go on the rack - Maximum wheel size for folding bikes is 20 inches
- Be ready - Bikes must be folded and bagged before boarding the bus
- One seat per customer please – Folded bikes go underneath the seat or in front of the customer
- Safety first - Motor-powered bikes are not permitted inside HART vehicles or on bus/van bike racks

## HARTFlex vans are now equipped with bike racks.

Same bike rack rules apply:

- Each bus and van bike rack accommodates two bikes
- Only single-seat, two-wheel bikes are permitted
- If the rack is full, customers should be prepared to wait for the next bus or choose a location to lock up their bike

## Bikes on Buses It's Simple:

**SQUEEZE**

**LOWER**

**LOAD**

**SECURE**
